

01

PROFESSIONAL SUMMARY

Full-stack SAP developer and technical lead with **9+ years** of IT experience, delivering enterprise applications on **SAP BTP** using **SAP CAPM (CAP Node.js)** and **SAP Fiori / SAPUI5**. Proven expertise in building secure, **multi-tenant cloud applications**, exposing **OData V4** services through **CDS & CAP**, and integrating BTP solutions with **SAP S/4HANA**. A pioneer in integrating **AI Agents** (using **Langgraph.js** and **ADK**) into ERP workflows, successfully designing and deploying autonomous systems for end-to-end invoice processing and supply chain automation.

PROFESSIONAL EXPERIENCE

- Tata Consultancy Services (TCS)

[May 2022 – Present]

SAP BTP / Fiori Developer · Technical Lead

Client: Cardinal Health | SAP BTP · CAPM · Fiori/UI5 & AI Agent Development

 - Developed and deployed full-stack applications using **SAP CAP (Node.js)** and **SAPUI5** on **SAP BTP** for supply-chain and procurement use cases.
 - Designed and exposed **OData V4** services via **CDS** and **CAP** to power dynamic, data-driven SAP Fiori applications.
 - Built secure, **multi-tenant cloud applications** with **XSUAA** and CAP service-layer authorization, following SAP security best practices.
 - Designed cloud-native applications on **SAP BTP CAPM** integrating seamlessly with **SAP S/4HANA**.
 - Implemented **SAP Fiori** apps with standard tiles and custom catalogs; configured **Fiori Launchpad Spaces & Pages** for role-based, user-friendly access.
 - Created **Fiori Elements** apps (List Report / Object Page), extension projects and master-detail apps; implemented **CRUD** operations and cross-app navigation to custom & GUI transaction apps.
 - Leveraged **SAP HANA** in-memory data modeling for real-time processing and optimized performance; built RESTful & OData services exposing business logic and data models.
 - Led end-to-end **SAP Fiori** setup from scratch — installation, configuration, customization — and supported go-live & hyper-care phases.
 - Designed and implemented **AI Agents** using **Langgraph.js** and **ADK** to automate end-to-end invoice processing, autonomously matching documents and reconciling discrepancies with S/4HANA.
 - Integrated LLMs and prompt engineering within SAP BTP cloud applications to extract, validate, and structure metadata from unstructured procurement documents.
- Accenture

[Dec 2019 – May 2022]

Software Analyst

 - Developed and maintained front-end components for enterprise web applications using **Angular** and **TypeScript**.
 - Translated business requirements into technical solutions within an agile team across the full development lifecycle.
 - Conducted code reviews and implemented bug fixes improving application performance and stability.
- Octal Systems Pvt. Ltd.

[Apr 2016 – Dec 2019]

Software Engineer

 - Engineered responsive, user-friendly web interfaces from UI/UX wireframes using **HTML5**, **CSS3** and **JavaScript**.
 - Key contributor to initial development and feature enhancement of multiple client-facing applications; created reusable JSON models and implemented multiple data-binding patterns.

04 KEY PROJECTS

// SAP CAP & Fiori App on BTP — Supply Chain & Procurement

Full-stack multi-tenant application on BTP. Integrated Langgraph.js and ADK AI Agents to automate end-to-end invoice processing, achieving agent-driven metadata extraction and matching.

SAP BTP CAPM (Node.js) AI Agents Langgraph.js
ADK SAPUI5

// Energy-Sector Billing Application (SAP UI5)

Billing solution with SAPUI5 Smart Controls (Smart Filter, Smart Table), routing & navigation, filtering and full OData CRUD, plus an overview-page dashboard of tiles and cards.

SAPUI5 Smart Controls OData CRUD Routing

// SAP MDK Mobile Application POC

Proof-of-concept mobile app on SAP Mobile Development Kit handling CRUD functionality, consuming and manipulating data via OData services and annotations.

SAP MDK OData Annotations

// Fiori Launchpad & UI5 App Configuration

End-to-end configuration of standard Fiori and custom UI5 apps — tiles, catalogs & groups, SICF node and OData service activation, plus UI5/Fiori debugging for error resolution.

Fiori Launchpad SICF OData SAPUI5

// Digital Signature Application (UI5 + HANA)

List Report app to create/delete users with credentials stored in encrypted format, reading data via OData services from a SAP HANA database.

SAPUI5 Fiori Elements OData SAP HANA

// AI Agent-Driven Invoice Processor (LangGraph & BTP)

A multi-agent system built with Langgraph.js and ADK to process incoming invoices, verify data against S/4HANA records, and autonomously handle exceptions.

Langgraph.js ADK SAP BTP AI Agents Node.js
