PROFESSIONAL SUMMARY

Full-stack SAP developer and technical lead with 9+ years of experience delivering enterprise applications across SAP BTP, SAP CAPM (CAP Node.js) and SAP Fiori / SAPUI5. Skilled in building secure, multi-tenant cloud applications, exposing OData V4 services through CDS & CAP, and integrating SAP BTP solutions with SAP S/4HANA and SAP HANA. Combines hands-on Fiori / UI5 development with strong L2/L3 production-support and incident-management experience, ensuring high application uptime, system stability and on-time delivery for mission-critical business landscapes.

CORE SKILLS

SAP BTP & Cloud	SAP BTP, SAP CAPM (CAP Node.js), Multi-tenant SaaS, XSUAA, Cloud Foundry, BTP Cockpit
SAP Fiori / UI5	SAP Fiori, SAPUI5, Fiori Elements (List Report / Object Page), Fiori Launchpad (Spaces & Pages), Smart Controls, SAP MDK
Data & Services	OData V4, CDS, RESTful Services, SAP HANA Data Modeling, SAP S/4HANA Integration, ABAP Repository & Transports
Web Technologies	JavaScript, TypeScript, HTML5, CSS3, Angular, JSON Models, Node.js
Support & DevOps	ServiceNow, Splunk, Iguana Integration Engine, Linux / Shell Scripting, Git, SQL, RCA & SLA Management

PROFESSIONAL EXPERIENCE

Tata Consultancy Services (TCS) — SAP BTP / Fiori Developer & Technical Lead May 2022 – Present
Client: Cardinal Health · SAP BTP, CAPM & Fiori/UI5 Development + Application Support

- Developed and deployed full-stack applications using **SAP CAP (Node.js)** and **SAPUI5** on **SAP BTP** for supply-chain and procurement use cases.
- Designed and exposed **OData V4** services via **CDS** and **CAP** to power dynamic, data-driven SAP Fiori applications.
- Built secure, **multi-tenant cloud applications** on SAP BTP using **XSUAA** and CAP service-layer authorization, adhering to SAP security best practices.
- Designed and deployed cloud-native applications using **SAP BTP CAPM**, integrating seamlessly with **SAP S/4HANA**.
- Implemented **SAP Fiori** applications using standard tiles and developed custom catalogs to enhance user accessibility and navigation.
- Configured **Fiori Launchpad** Spaces and Pages to deliver role-based, user-friendly access environments and improve overall user experience.
- Developed **Fiori Elements** applications (List Report & Object Page), extension projects and master-detail apps; implemented **CRUD** operations and cross-app navigation to custom and GUI transaction apps.
- Leveraged **SAP HANA** for data modeling and real-time, in-memory data processing to optimize application performance.
- Built RESTful and OData services to expose business logic and data models, enhancing system interoperability and scalability.
- Led end-to-end **SAP Fiori** setup from scratch — installation, configuration and customization — and actively supported the go-live and hyper-care phases.
- Provided **L2/L3** production support for mission-critical applications: managed the incident lifecycle in **ServiceNow**, performed root-cause analysis (RCA) and ensured strict **SLA** compliance as primary technical liaison.
- Maintained system integrations and data flows on the **Iguana** engine, built monitoring dashboards in **Splunk**, and authored **Linux** automation scripts to reduce manual intervention.

Accenture — Software Analyst Dec 2019 – May 2022

- Developed and maintained front-end components for enterprise web applications using **Angular** and **TypeScript**.
- Collaborated in an agile team to translate business requirements into technical solutions across all phases of the development lifecycle.

- Conducted code reviews and implemented bug fixes to improve application performance and stability.

Octal Systems Pvt. Ltd. — Software Engineer

Apr 2016 – Dec 2019

- Engineered responsive, user-friendly web interfaces based on UI/UX wireframes using HTML5, CSS3 and JavaScript.
- Played a key role in the initial development and feature enhancement of various client-facing applications.
- Applied UI guidelines and standards throughout application development and maintenance; created reusable JSON models and implemented multiple data-binding patterns.

KEY PROJECTS

SAP CAP & Fiori Application on SAP BTP — Supply Chain & Procurement

Built and deployed a full-stack, multi-tenant application on SAP BTP with a CAP (Node.js) service layer exposing OData V4 endpoints, secured via XSUAA and consumed by SAPUI5 / Fiori Elements front-ends.

Energy-Sector Billing Application (SAP UI5)

Developed a billing solution using SAPUI5 Smart Controls (Smart Filter, Smart Table) with routing, navigation, filtering and full OData CRUD operations, plus an overview-style dashboard of tiles and cards.

SAP MDK Mobile Application POC

Delivered a proof-of-concept mobile app using SAP Mobile Development Kit handling CRUD functionality and data manipulation through OData services and OData annotations.

Fiori Launchpad & UI5 App Configuration

Performed end-to-end configuration of standard Fiori and custom UI5 applications — creation of tiles, catalogs and groups, activation of SICF nodes and OData services, and debugging for error resolution.
