PROFILE

Full-stack SAP developer and technical lead with **9+ years** of IT experience delivering enterprise applications on **SAP BTP** using **SAP CAPM (CAP Node.js)** and **SAP Fiori / SAPUI5**. Proven in building secure, **multi-tenant cloud applications**, exposing **OData V4** services through **CDS & CAP**, and integrating BTP solutions with **SAP S/4HANA** and **SAP HANA**. Pairs hands-on Fiori/UI5 engineering with strong **L2/L3 production support** and incident management for high uptime and on-time delivery.

EXPERIENCE

Tata Consultancy Services (TCS)

May 2022 – Present

SAP BTP / Fiori Developer · Technical Lead

Client: Cardinal Health — SAP BTP · CAPM · Fiori/UI5 Development & Application Support

- Developed and deployed full-stack apps using **SAP CAP (Node.js)** and **SAPUI5** on **SAP BTP** for supply-chain & procurement use cases.
- Designed and exposed **OData V4** services via **CDS** and **CAP** to power dynamic SAP Fiori applications.
- Built secure, **multi-tenant cloud applications** with **XSUAA** and CAP service-layer authorization following SAP security best practices.
- Designed cloud-native applications on **SAP BTP CAPM** integrating seamlessly with **SAP S/4HANA**.
- Implemented **SAP Fiori** apps with standard tiles & custom catalogs; configured **Fiori Launchpad Spaces & Pages** for role-based access.
- Created **Fiori Elements** apps (List Report / Object Page), extension projects and master-detail apps with **CRUD** and cross-app navigation.
- Used **SAP HANA** in-memory modeling for real-time processing; built RESTful & OData services exposing business logic and data models.
- Led end-to-end **SAP Fiori** setup from scratch and supported go-live & hyper-care.
- Delivered **L2/L3** support — incident lifecycle in **ServiceNow**, RCA, strict **SLA** compliance, **Iguana** integrations, **Splunk** dashboards and **Linux** automation.

Accenture

Dec 2019 – May 2022

Software Analyst

- Built and maintained front-end components for enterprise web apps using **Angular** and **TypeScript**.
- Translated business requirements into technical solutions in an agile team across the full lifecycle.
- Conducted code reviews and bug fixes improving performance and stability.

Octal Systems Pvt. Ltd.

Apr 2016 – Dec 2019

Software Engineer

- Engineered responsive web interfaces from UI/UX wireframes using **HTML5**, **CSS3** and **JavaScript**.
- Key contributor to development and feature enhancement of client-facing apps; built reusable JSON models and data-binding patterns.

KEY PROJECTS

SAP CAP & Fiori App on BTP — Supply Chain & Procurement

Full-stack, multi-tenant app on SAP BTP: CAP (Node.js) exposing OData V4, secured via XSUAA, consumed by SAPUI5 / Fiori Elements.

SAP BTP · CAPM · OData V4 · CDS · XSUAA · SAPUI5

Energy-Sector Billing Application (SAP UI5)

SAPUI5 Smart Controls (Smart Filter / Table), routing, filtering and full OData CRUD with an overview-page dashboard.

SAPUI5 · Smart Controls · OData CRUD · Routing

SAP MDK Mobile App POC · Fiori Launchpad & UI5 Configuration

MDK mobile CRUD app over OData annotations; end-to-end FLP/UI5 setup — tiles, catalogs, SICF & OData activation, debugging.

SAP MDK · OData · Fiori Launchpad · SICF

Digital Signature App (UI5 + HANA) · Linux Support Automation

List Report app with encrypted credential storage over OData/HANA; Linux scripts for health checks & Iguana restarts cut resolution time ~40%.

SAPUI5 · SAP HANA · OData · Linux · Python
